Core Areas of Expertise

Education 20+ years of experience with U.S. Department of Education: program and implementation evaluations, web tools to catalog and visualize data, meetings support, expert recruitment, coordination of grant reviews, collecting administrative data, supporting randomized control trials, developing analysis plans, study participant recruitment, and report writing.

Health Our Health Policy Research Center (HPRC) provides objective research and evaluation on salient health issues. Clients: US DHHS, including SAMHSA, CMS, NIH, ACF and AoA; State, local and international health projects.

International Practice International Practice (IP) provides research and analysis with projects that cover a range of economic development issues, including education, public health, entrepreneurship, export promotion, rule of law, agriculture, and global food security. Completed projects in 24 countries.

Workforce Development Workforce Development and Social Policy Research Center (WDSRPC) conducts program evaluation and technical assistance on child welfare, youth development, adolescent risk behavior, job training, workforce development, telework, welfare policy, family formation, and child support.

Housing, Economic Development and Transportation. This center (HEDTRC) performs research and technical assistance work designed to inform policymakers and practitioners in the planning and development fields. Clients include local, state, and federal government agencies and organizations in the private and non-profit sectors.

Project Highlights

U.S. Small Business Administration

For 10+ years, Optimal has designed and implemented non-experimental, quasi-experimental, and experimental evaluations for the SBA chief evaluation officer. These evaluations include instrument design, data collection, analysis and reporting for: national procurement scorecard, Scaling-Up America, Regional Innovation Cluster and Jobs and Innovation Accelerator Challenge, the Emerging Leaders Initiative, and programs for woman-owned, Native American-owned, Veteran owned, 8(a) Business Development program, and HUBZones.

Centers for Medicare & Medicaid Services

For more than 15 years, Optimal has conducted studies and provided technical assistance to multiple CMS divisions that included a myriad of technical approaches: case study analysis, systematic reviews, cost analysis, economic analysis, performance measurement and measurement development, process/policy/program analysis, risk assessment and analysis.

U.S. Department of Education

For over 20 years, Optimal has provided research, evaluation, and technical assistance services across ED. These studies have included topics on early reading teaching instruction, charter schools, postsecondary education, service obligations systems, National Assessment of Education Progress reporting, adult education, development of statistical standards, and statistical and writing style guidelines.

Analytics Tools Developed by Optimal

Revelo automates data validation, harmonization and linking. Built for multi-level stakeholder needs.

Accessible

Website accessibility, usability, plain language testing, organizational reporting

Streamlined Market Research and Analysis

Automated Comments Processing

Customized Content and Data Synthesis ChatBot

Links education administrative and contextual data with interactive dashboards

Auto linked and harmonized administrative and secondary data using ETL across 50+ countries
